ODESSA CEMETERY

Odessa, Missouri

AND FAMILY CEMETERIES OF LAFAYETTE COUNTY, MISSOURI

1978

Compiled and published by

Mary Helm Bennett

510 West Orchard

Odessa, Missouri 64076

O D E S S A C E M E T E R Y

D E D I C A T I O N

This book is dedicated to the Odessa area on the occasion of it's Centennial. It is further dedicated to those of my forebears who were among it's early settlers; the Helm and Summers families, and to my son, David Michael Brayley, who has now joined those ancestors.

INSTRUCTIONS

Monuments bearing several names are spaced together.

Comparable stone: When stones in the immediate vicinity are of like style and color but bear different surnames it is noted "Comp. to John Doe". This may further identify relatives buried nearby.

An effort was made to list in the index the surnames used as given names; most of them listed in the body of the book are in capital letters.

An asterisk preceding name indicates information obtained from other sources which could not be verified.

H I S T O R Y

The ODESSA CEMETERY originated September 26, 1881 before Odessa was an incorporated town. Many outlying landowners brought relatives buried earlier on the farms to the new cemetery in town. The earliest marker is for: James Truman, son of Rev. Richard & Harriet J. A. BROWN who died 13 Jan.,1847, thirty-four years before the cemetery was established.

When I recorded the Odessa Cemetery as my first genealogical project in November, 1973 I was unaware of the long and varied path I would travel. Within an hour of learning the dearth of information available on the cemetery I was filling up a legal tablet with names that might not be recorded any other place. In the fall of 1978 I again walked through the cemetery to pick up any monuments erected in the five year interval.

The Odessa Cemetery Association kindly opened their files so a search could be made for those buried without markers. These names were added along with the record of the lot ownership. In most older cemeteries there are few records of the individual burials. The bookkeeping was very haphazard until Mr. Hugh J. Ramsey was instrumental in forming the association in 1945.

Please note on the maps for Blocks I through VI the numbers of the lots run lengthwise rather than across the Block. This would have been very difficult to list accurately so the pattern used is north to south or south to north. From the Association records I have added into the original census the Lot and Grave numbers to help in their location. For example: John Doe (296-4); this shows that this individual was buried in Lot 296,grave 4. The Block number is provided at the top of each page. When the lot and grave numbers were not given in the burial records the lot number was obtained from the Lot Ownership records which begin on page 124. This method may result in some inaccuracies and does not include the grave numbers.

Blocks VII thru X are numbered consequetively from north to south which makes the graves easier to locate.

This land was originally entered 24 January 1848 by Ninian W. LETTON. The first land purchased by Odessa was from A. B. HATCH
