A Hartford correspondent of the Springfield Republican says: "As an unprejudiced observer of Connecticut politics, my own opinion is that the republicans will not have the senatorship to quarrel over next winter." It is assumed, of course, that the next house will be democratic, a position that is not questioned anywhere.

A crowd of people was assembled, one evening last week, at Elizabeth, N. J., by a potato race between John Jackson and Philip Sabine. The winner was completely exhausted at the close.

The Revereville, N. Y. Great man, that Edison. The B-rattlebough people expect to can the noise and sell it for export to the colonies."

THE BANK ROBBERY CASE.

When we wrote up the bank robbery case last week, and the apprehension of Offutt, Renick and Correll, it was under the firm belief that the men in arrest were the guilty parties. We had been present in the jail when the witnesses from Concordia fully identified them, and though they themselves protested that they could prove an alibi, their statement made little impression upon the jury, as persons of serious crime nearly always assert their innocence, and the proof offered by responsible men, known to us, and who could have no interest but in the conviction of the right man, seemed to us conclusive. At this writing the case is one of the most singular that have ever come before the court.

On the one hand Messrs. Fickens, Deuchler, Wilburn, and Renick, swear positively that they are the men, and on the other a crowd of witnesses swear that they were at such places on the day that the crime was committed, that it would have been impossible for them to be at Concordia also. The uncalculated effort to make it appear that Johnson county democrats would swear anything to elect Renick, and the allies from the city, is a very curious case.

It is a very curious case, and the jury, in its verdict, should be guided by the evidence, and not by the promises of the democrats.

The evidence was closed Thursday night, and the court adjourned until late in the afternoon, when the arguments were made.

A great deal of evidence was offered to corroborate and join together the evidence we have alluded to.

The G.D. now thinks Mr. Metcalf, recently nominated by its party, for congress in the third Missouri district, a very fit candidate. The following named banks responded to the treasurer's circular, requesting bids under the constitutional provision: Continental Bank, Fourth National Bank, Manufacturers' Bank, Merchants' National Bank, Commercial Bank, Valley National Bank, Bank of Commerce, St. Joseph, and the National Exchange Bank, Jefferson City. The Concordia Bank Robbery. We gave, last week, a pretty full synopsis of the principal points of the evidence in the bank robbery case, and mentioned that speeches had been made in it by Judge William Walker, Col. George S. Robinson, and Mr. Robert A. Hicklin. The argument was continued on Saturday by Mr. J. D. Shaw, for the defense, and Judge William Young for the state. At the conclusion of Judge Young's speech, the court room was crowded to the doors. The evidence established the guilt of the prisoners in one case, established the fact in the other case. The crime with which the prisoners stand charged is a grave one, which every citizen of Missouri and state feels a deep interest in seeing punished to the full extent of the law. The witnesses on the part of the state are among the best known and most reliable in the state. Eight or ten of them testify that the men who committed the crime with which the prisoners stand charged, are entire strangers to them. They testify, also, that there are no persons in the state who could be called upon to testify that they were present at the robbery. The evidence is so clear, that it is impossible to doubt the guilt of the prisoners. The state is entitled to a verdict of guilty, and the prisoners are entitled to a verdict of guilty.

The Concordia Bank Robbery. We gave, last week, a pretty full synopsis of the principal points of the evidence in the bank robbery case, and mentioned that speeches had been made in it by Judge William Walker, Col. George S. Robinson, and Mr. Robert A. Hicklin. The argument was continued on Saturday by Mr. J. D. Shaw, for the defense, and Judge William Young for the state. At the conclusion of Judge Young's speech, the court room was crowded to the doors. The evidence established the guilt of the prisoners in one case, established the fact in the other case. The crime with which the prisoners stand charged is a grave one, which every citizen of Missouri and state feels a deep interest in seeing punished to the full extent of the law. The witnesses on the part of the state are among the best known and most reliable in the state. Eight or ten of them testify that the men who committed the crime with which the prisoners stand charged, are entire strangers to them. They testify, also, that there are no persons in the state who could be called upon to testify that they were present at the robbery. The evidence is so clear, that it is impossible to doubt the guilt of the prisoners. The state is entitled to a verdict of guilty, and the prisoners are entitled to a verdict of guilty.

It is announced that Mexico will send delegates to the approaching commercial convention at New Orleans.

Commis-sioner Allen opposes a reduction of the tobacco tax from twenty-two to eighteen cents per pound.

Thomas Jefferson. Capital may be produced by industry and accumulated by economy, but only jugglers will propose to create it by legislation tricks with paper.

The Russian deficit for the fiscal year 1878-79, will be 75,000,000, marks of which 70,000,000 must be raised by the most powerful sovereign upon earth, and he should pay up his debt with fiat paper money—but maybe his beaunted majesty has never seen Briton A. Hill's luminous works on finance.

It is a southern state were to do a thing of this sort, the republican organs at north would be dreadfully disturbed, and smell no end of treason in the air."

WHAT SHALL BE DONE WITH OUR CRIMINALS?

Probably the most important subject which will come before the next general assembly for consideration is the disposition to be made of the criminals of the state, and such changes in the criminal code as will reduce the costs of crime. Our state penitentiary is in a very unsatisfactory condition, and it is likely that there will be a deficiency of forty-five or fifty thousand dollars to be made good by the legislature. In an article which we printed, April 10, 1875, we showed from official data and reliable estimates, that crime costs the state of Missouri about five hundred and thirty thousand dollars per annum, and that the expense of the penitentiary, as it is now conducted, is about \$1,000,000. It is likely that there will be a deficiency of forty-five or fifty thousand dollars to be made good by the legislature. The first is its expense. We had there, on last Saturday, 1246 male prisoners and 42 females, including, for convenience of argument, the 260 men who are at the Missouri coal mines. While 1246 of these convicts are reported as being at work, it is evident that they are not, for the penitentiary is a self-supporting institution, and it is likely that there will be a deficiency of forty-five or fifty thousand dollars to be made good by the legislature. Third—to accept special deposits of gold coins, but not to issue them as legal tender.

General Sherman's annual report shows that there are 7,222 enlisted men in the regular army. The regular army, 2,500 in the five regiments of artillery, and 11,200 in the twenty-five regiments of infantry, making a total of 13,722. James Collins was sentenced to be hanged in St. Louis in 1872 for murdering his wife because she would not cook his victuals, and refused to apply for pardon or respite of sentence, but his lawyer did so, and the governor, thinking that a man who insisted on being hanged, was a dangerous man, and that he would be a danger to the state, and that he would be a danger to the state, and that he would be a danger to the state.

The remedy which we propose for most of these evils is a simple one. It involves, however, a radical change in our criminal laws. Let none but those convicted of the higher grades of crime be sent to the penitentiary—say those guilty of murders, rapes, and aggravated cases of burglary, robbery or forgery; and let the ordinary thieves, and those guilty of minor felonies, as well as misdoers, be kept in county jails. Let the sentences to imprisonment for the Thoroughly perfect state he still wishes his penitentiary to be carried out, and wrote a letter to Gov. Phelps a few days ago saying that he might be executed.

In another column will be found a letter from Chicago, written by Arnold T. Winsor, Esq., which shows one of the means used by the republican party to fire the northern heart against the people of the south. Instead of christian charity we here find, in the pulpits, learning prostituted to falsehood and hate, the opposite of the doctrine of tolerance, brotherly love and reconciliation preached by such honored southern politicians as Hampton, Lamar, Gordon and Stephens.

General Sherman's annual report shows that there are 7,222 enlisted men in the regular army. The regular army, 2,500 in the five regiments of artillery, and 11,200 in the twenty-five regiments of infantry, making a total of 13,722. Besides these are in the engineer battalion 129 permanent and recruiting parties, 121 men detached on general service, 121 men detached on general service, 121 men detached on general service.

James Collins was sentenced to be hanged in St. Louis in 1872 for murdering his wife because she would not cook his victuals, and refused to apply for pardon or respite of sentence, but his lawyer did so, and the governor, thinking that a man who insisted on being hanged, was a dangerous man, and that he would be a danger to the state, and that he would be a danger to the state, and that he would be a danger to the state.

The remedy which we propose for most of these evils is a simple one. It involves, however, a radical change in our criminal laws. Let none but those convicted of the higher grades of crime be sent to the penitentiary—say those guilty of murders, rapes, and aggravated cases of burglary, robbery or forgery; and let the ordinary thieves, and those guilty of minor felonies, as well as misdoers, be kept in county jails. Let the sentences to imprisonment for the Thoroughly perfect state he still wishes his penitentiary to be carried out, and wrote a letter to Gov. Phelps a few days ago saying that he might be executed.

In another column will be found a letter from Chicago, written by Arnold T. Winsor, Esq., which shows one of the means used by the republican party to fire the northern heart against the people of the south. Instead of christian charity we here find, in the pulpits, learning prostituted to falsehood and hate, the opposite of the doctrine of tolerance, brotherly love and reconciliation preached by such honored southern politicians as Hampton, Lamar, Gordon and Stephens.

Republican candidate for governor in Pennsylvania is elected by a small plurality, but lacks over fifty thousand of a majority. If the national had helped the democracy there, the republicans would have been badly beaten. So it goes.

The bodies of four prominent deceased citizens were stolen at Zanesville, O., last Wednesday night. The police seized a suspicious looking wagon followed it some fourteen miles, and then recovered the bodies, but the thieves escaped.

Our state railroad commissioners have been absent this week at Columbus, O., attending a convention of commissioners from several states. Hon. Jno. Walker was made chairman of the meeting.

It all the greenbackers had acted to get in the democratic ranks at the recent election in Pennsylvania, Ohio, and Iowa, the republicans would have been defeated in those states.

Blackwater is to be dammed at Sweet Springs, thereby rendering it navigable for some miles above that point, and affording a fine piece of water for boating and fishing.

The New York Sun, which has been probably more than any other paper, Mr. Tilden's personal organ, declares that he will never again be a presidential candidate.

Mr. Talmage is preaching the eastern people that they need missionaries quite as badly on Manhattan island as they do in the wilds of Africa—a good lesson.

The remains of A. T. Stewart which were stolen from the sepulchre some days ago have not been found.

The New York Clearing House Association, at a meeting last Tuesday, decided upon the following plan of action after January 1st, to assist the United States treasury in resuming specie payments. First—to decline receiving gold coins as special deposits, but accept and treat them as lawful money. Second—to accept special deposits of gold coins, but not to issue them as legal tender. Third—to accept special deposits of gold coins, but not to issue them as legal tender.

A CARD.

To the Republican Voters of Freedom township—Allow me to express my thanks for the many expressions of confidence you have shown me in the election of November 1st. I am proud to have been selected your representative and worthy the responsibility which would not be momentary flatter myself that I would have been the recipient of such a complimentary vote. Let the happy conclusion be made by the other, your gratifying vote shows conclusively that you are not voting for empty promises. In return for your kindliness, I only ask of you a careful criticism of my course in connection with my duties at Jefferson City this winter. I am respectfully your humble servant.

AN OLD PAPER.

[From the Carroll Record.] We have been shown by A. McComb part of an old newspaper called "Harry of the West," published at Lexington, Mo., Sept. 18, 1841. It is devoted to the interest of the Whig party, and contained a speech by C. C. Calhoun upon the subject of the annexation of Texas. The speech was a masterpiece of logic and eloquence, and the annexation of Texas was the subject of the day. The annexation of Texas was the subject of the day.
