This table was created from a a set of pages provided by Chester Fiene. Those pages appear to be a listing of plots sold as of about 1986. It does not include many of the older burial sites, such as the bushwacker victims. Sites in the newer section of the cemetery (6A) do not necessarily indicated actual burials.

Many of the lots are listed under the name of the husband only but are often family burial sites, i.e. including the wife and sometimes younger children. The wife's name is also shown if included in the original listing. When a female name is listed for the site, it frequently includes Mrs. indicating the married name. Because abbreviations are frequently used, it is difficult to determine if the given name is that of the husband or wife. A few entries were made with the maiden name and "Wife of ..." added. Occasionally, a maiden name (listed in parentheses) was included with the married name. Separate entries are included for the husband and wife in the newer section (6A).

Titles of individuals were included from the original listing to help clarify the name of the person. Only the more obvious spelling errors were corrected, but not such things as whether the name ends with one or two n's. (Spellings change through the years and it was not known what appears on the tombstone.) Unfamiliar names occurring multiple times were changed to what was considered to be the likely spelling. This includes Martins to Martens, Schmucher to Schumacher, and Fruend to Freund. There also may be errors interpreting some handwritten notes on the original listing. Abbreviations and nicknames for a person's given name were retained from the original listing.

Date of death (and sometimes birth) were included only if shown in the original listing. This could eventually be expanded if someone is able to read what is shown on the tombstone.

Some dates do not agree with St. Paul's Lutheran Church funeral records. They need to be checked.
